# Growth is the foundation for inclusion

# What is Inclusive Growth?

## **Inclusive growth**

relates to a broad sharing of benefits and opportunities of economic growth, and reflects:

**robust and broad-based Growth**

Growth promoting **productive employment** across the labor force

Growth that embodies **equal opportunities** in access to markets and resources

Growth **protecting the vulnerable**

# Our solution and action plan

**Source all available content**

on the five chosen pillars

**Curate and create content** on problems and solutions affecting inclusive growth and innovation

Empower **inclusive innovators** to help them expand their businesses and knowledge sharing

**Create a network of innovators**

that are using technology and their business for a more inclusive society

Helping to implement innovation based inclusive growth through our **IGF accelerator** and our **innovation toolbox**

# Inclusive Innovators

## **Inclusive Innovators:**

- **tap profitably into the pool of usable science and technologies to create business and work thereby avoiding technological unemployment,**
- **focus their business model on skills development, and/or**
- **match skilled people with work opportunities, and/or**
- **match human skills with machines, and/or**
- **have operational practices and business models revolutionizing the labor market, and/or**
- **allow access to technology and science to a wide community**

# Innovation based Inclusive Growth

The Forum considers Inclusive Innovation the cornerstone on inclusive growth and has developed an action plan focusing on:

- Spreading awareness about Inclusive Innovation
- Developing methodologies to boost Inclusive Innovation
- Qualifying Inclusive Innovators
- Highlighting Inclusive Innovators
- Elaborating and promoting focused acceleration services
- Educating and working with stakeholders
